DATA SIGNS TRAINING

Via ZOOM or Microsoft Teams

Data Signs, the leading manufacture of solar powered traffic products, is delighted to offer an online training program. The training streams on offer will equip users with the full potential of our leading software systems and products.

Data Signs Training Program currently offers the following streams:

DS-Live™ Training Stream

Our DS-Live™ Training Stream has been developed to equip you and your staff with the ability to harness the full power and feature-set of the best online fleet mangement system ever created.

This session covers the following topics:

• DS-Live™
• Setup / Deployment / Overview
• VMS Computer

Duration: Up to 2 hours

PTL Training Stream

Our PTL Training Stream provides in-depth instruction in set up and use of our Portable Traffic Light products.

This session covers the following topics:

• Introduction to PTL operation
• Advanced PTL operation
• Using PTL's with DS-Live™
• Setup / Deployment / Overview
• Remote controller options

Duration: Up to 3 hours
